

Siemens Japan

Internship at Siemens Japan Shared Services IT

SIEMENS

Job Description

Since its establishment in Japan in 1887, Siemens has a long history of providing its customers with a diverse range of innovative products and services through direct activities, joint ventures and cooperation with Japanese companies. Today, the Siemens Group in Japan conducts business in a wide range of areas, including automation and control, power, transportation, medical and lighting. In 2008, the Siemens Group posted sales of 179 billion yen on a consolidated basis, and had a total of about 2,600 employees.

Join the Japan Shared Services IT team as we work to develop and deploy Microsoft Office Sharepoint Server 2007 for Siemens Japan. The intern in this role must be able to work in a dynamic and fast-paced environment and be able to take ownership for development assignments within MOSS 2007. We are looking for a highly motivated student with at least 6 months of .NET development experience along with a strong coursework in Computer Science or equivalent. Collaboration, clear communication in English and teaming are a must!

Preferred start date is January/February 2009 in Tokyo, internship length is 6 months. Internships are paid positions.

Qualifications

- Major: Computer Sciences or equivalent preferred
- Prediploma required
- Fluent English required, Japanese as a plus
- Strong working knowledge of PC and Microsoft Office Suite applications required
- Strong knowledge of .NET, HTML and SQL required
- Microsoft Office Sharepoint Server 2007 experience as a plus
- Siemens experience as a plus
