

Siemens Japan

Internship at Siemens Japan Shared Services IT

SIEMENS

Job Description

Since its establishment in Japan in 1887, Siemens has a long history of providing its customers with a diverse range of innovative products and services through direct activities, joint ventures and cooperation with Japanese companies. Today, the Siemens Group in Japan conducts business in a wide range of areas, including automation and control, power, transportation, medical and lighting. In 2008, the Siemens Group posted sales of 179 billion yen on a consolidated basis, and had a total of about 2,600 employees.

Join the Japan Shared Services IT team as we work to develop and deploy a collaborative Intranet system for Siemens Japan. The intern in this role must be able to work in a dynamic and fast-paced environment and be able to take ownership for development assignments. We are looking for a highly motivated student with at least 6 months of .NET development experience along with a strong coursework in Computer Science or equivalent. Collaboration, clear communication in English and teamwork are a must!

Preferred start date is July/August 2009 in Tokyo, internship length is 6 months.

Internships are paid positions.

Application deadline: 15th May 2009 (earlier applications will be given special consideration)

Qualifications

- Major: Computer Sciences or equivalent preferred
- Prediploma or 3 semesters of Bachelor's degree required
- Fluent English required, Japanese as a plus
- Strong working knowledge of Windows and Microsoft Office Suite applications required
- Strong knowledge of .NET, HTML and SQL required
- Microsoft Office Sharepoint Server 2007 and Windows Server 2003 experience as a plus
- Siemens experience as a plus
